

AMENDMENT

Kindly amend the application, without prejudice, without admission, without surrender of subject matter, and without any intention of creating any estoppel as to equivalents as follows.

IN THE CLAIMS:

Kindly amend the claims, without prejudice, without admission, without surrender of subject matter, and without any intention of creating any estoppel as to equivalents, to read as follows:

1. (Currently Amended) A combined immunological, immunogenic or vaccine composition ~~comprising~~ consisting essentially of a first antigen or epitope of interest from a first enteric pathogen comprising *Cryptosporidium* and/or a first vector that expresses the first antigen or epitope of interest, and a second antigen or epitope of interest from a second enteric pathogen and/or the first vector that expresses the first antigen or epitope of interest also expresses the second antigen or epitope of interest and/or a second vector that expresses the second antigen or epitope of interest, and a pharmaceutically acceptable vehicle wherein the first and second enteric pathogens can be the same enteric pathogen or different enteric pathogens.

2. (Currently Amended) The composition according to claim 1 ~~comprising~~ consisting essentially of an antigen from *Cryptosporidium parvum* and an antigen from a second enteric pathogen.

3. (Currently Amended) The composition according to claim 2 ~~comprising~~ consisting essentially of an antigen from *Cryptosporidium* and an antigen from a second enteric pathogen wherein the second enteric pathogen is a pathogen of a bovine species.

4-17. Withdrawn

18. (Currently Amended) The composition according to claim 3, ~~comprising~~ consisting essentially of sub-unit *Cryptosporidium parvum* antigens selected from the group consisting of P21, Cp23, Cp15/60, CP41 and mixtures thereof.

19-20. Withdrawn

21. (Currently Amended) The composition according to claim 18, ~~comprising~~ consisting essentially of Cp23 and Cp15/60.

22-23. Withdrawn

24. (Currently Amended) The composition according to claim 18, ~~comprising~~ consisting essentially of P21 and Cp15/60.

25. (Currently Amended) The composition according to claim 1, which further ~~comprises~~ consists essentially of an adjuvant.

26-29. Withdrawn

30. (Currently Amended) An immunological, immunogenic or vaccine composition against *Cryptosporidium parvum*, which ~~comprises~~ consists essentially of a first antigen comprising a P21 or Cp23 antigen or an epitope thereof or a first vector that expresses the first antigen and a second antigen comprising Cp15/60 antigen or epitope thereof or the first vector wherein the first vector expresses both the first and second antigens or a second vector that expresses the second antigen, and a pharmaceutically acceptable vehicle.

31. The composition according to claim 30, wherein P21 or Cp23 and Cp15/60 antigens are in the form of separate fusion proteins.

32-33. Withdrawn

34. (Currently Amended) The composition according to claim 30, which ~~comprises~~ consists essentially of Cp23 and Cp15/60.

35. (Currently Amended) The composition according to claim 30, which further ~~comprises~~ consists essentially of an adjuvant.

36. (Currently Amended) An immunological, immunogenic or vaccine composition against *Cryptosporidium parvum*, which ~~comprises~~ consists essentially of a first antigen comprising a P21 or Cp23 or Cp15/60 or CP41 antigen or an epitope thereof or a first vector that expresses the first antigen and a second antigen comprising a second antigen or epitope thereof from *Cryptosporidium parvum* or the first vector wherein the first vector expresses both the first and second antigens or a second vector that expresses the second antigen, wherein the first and second antigens are different from each other, and a pharmaceutically acceptable vehicle.

37-44. Withdrawn

45. (Currently Amended) A kit for preparing a composition according to claim 1 ~~comprising~~ consisting essentially of the antigens, epitopes or vectors each in separate container or containers, optionally packaged together; and further optionally with instructions for admixture and/or administration.

46-55. Withdrawn

56. (Currently Amended) An immunological, immunogenic or vaccine composition against *Cryptosporidium parvum*, which ~~comprises~~ consists essentially of a first antigen comprising a P21 antigen or an epitope thereof and a second antigen comprising Cp15/60 antigen or epitope thereof, and a pharmaceutically acceptable vehicle.
